SPACES THAT INSPIRE

Catherine Marrano Interiors blends comfort with timeless sophistication and practicality to create spaces where clients live their best lives.

An early exposure to world travel initially sparked Catherine Marrano's love for intricate details, beautiful objects, and rich cultural expressions. Today, that passion translates into the inspired, elevated, and personalized approach she brings to each client's interior.

"My approach is a balance of forward-thinking design innovations infused with timeless designs from

the past, blending comfort with practicality and unique expression," says Marrano, who brings over two decades of design experience with her firm, Catherine Marrano Interiors. "Most importantly, I draw inspiration from my clients' experiences. It's about enhancing lives and creating a sense of belonging and pride in one's interior as we tell their story through design."

A REFINED RETREAT

For a recent combined bar lounge project, Marrano listened carefully to the client's desire to create an elegant retreat tailored to adult entertaining and relaxation.

A palette of rich greens and blues is accented by warm woods and plush fabrics. The centerpiece of the room is a beautifully crafted coffered ceiling

and stunning chandelier, complete with a moody bar, high-quality finishes, and soft ambient lighting that creates a cozy glow. Bespoke, one-of-a-kind accents are paired strategically with family heirlooms and beloved artworks, creating an elevated design experience that feels personal and unique to the client. The resulting space is a versatile haven for both quiet evenings and lively gatherings with guests.

"One of the most appealing aspects of working with Catherine's team was the seamless, turnkey experience they provided," say the clients, Bobby and Kristi Stephens. "The outcome exceeded our expectations. This transformed space has become our cherished sanctuary and the crown jewel of our home."
